### DETAILED ACTION

Applicant's amendment in the reply filed on 6/20/08 is acknowledged. Any rejection that is not reiterated is hereby withdrawn. Claims 72-77, 80-91, and 94-100 are pending. Claims 1-71, 78-79, and 92-93 are cancelled. Claims 83-86, and 97-100 are withdrawn. **Claims 72-77, 80-82, 87-91, and 94-96 are examined on the merits.**

### Claim Rejections –35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 72-77, 80-82, 87-91, and 94-96 are newly rejected under 35 USC § 102 (b) as being anticipated by Iketani et al (JP 62108844 A).

This is a new rejection necessitated by the Applicant's amendment filed on 6/20/08.

Iketani et al teach that dried seed of *Trichosanthes japonica*. *Trichosanthes bracteata*, etc. (a plant of Cucurbitaceae family) is extracted with a solvent such as water, methanol, ether, benzene, etc., and subjected to column chromatography. The obtained crude fraction is purified by chromatography to obtain the objective compound (see Abstract, the rejection is based on the Abstract, full translation has been ordered).

These are product-by-process claims. The water, methanol extract of *Trichosanthes japonica* inherently contains the pharmaceutical composition that is being currently claimed, and the composition is deemed to have the physical properties such as retention time on high performance liquid chromatography.

The intended use of the composition was analyzed for patentable weight. It is deemed that the preamble 'breathes life' into the claims in that it is deemed that the prior art product must not be precluded for use to induce hemoglobin synthesis in human K562 cells, especially in the absence of sufficient, clear, and convincing evidence to the contrary. It is deemed that the composition disclosed by Iketani et al. is not precluded for carrying out the intended function of the claims.

Therefore, the reference is deemed to anticipate the instant claim above.

---

### **Conclusion**

No claim is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
